**PRAYER FOR RELIEF**

To the extent any response is required, UBS denies the requests in the Complaint's Prayer for Relief.

**DEFENSES**

UBS asserts the following defenses in response to the Complaint. In asserting these defenses, UBS does not admit that it has the burden of proof on issues as to which plaintiffs properly bear the burden.

**First Defense**

The Complaint fails to state a claim against UBS upon which relief may be granted. UBS incorporates by reference the defenses set forth in the Defendants' February 5, 2009 Motion to Dismiss.

### **Second Defense**

The Complaint's claims against UBS are barred because UBS, after reasonable investigation, had reasonable ground to believe and did believe at the time the Registration Statement became effective that the statements therein were true. UBS also reasonably believed, at the time Registration Statement became effective, that no material facts were omitted. Further, the Complaint's claims against UBS are barred because, even if the Registration Statement contained a false or misleading statement or omitted any material fact required to be stated or necessary to make any statement not misleading—which UBS denies—UBS did not know, and in the exercise of reasonable care could not have known, of the untruth or omission.

### **Third Defense**

The Complaint's claims against UBS are barred because, with respect to the portions of the Registration Statement purporting to be made on the authority of an expert, UBS had no reasonable ground to believe, and did not believe, at the time the Registration Statement became effective, that the statements therein were untrue or omitted to state a material fact required to be stated or necessary to make the statements not misleading, or that such statements did not fairly represent the expert's statement.

### **Fourth Defense**

The Complaint's claims against UBS are barred because the allegedly omitted facts were not known or knowable in the exercise of due diligence when the Registration Statement became effective.

### **Fifth Defense**

The Registration Statement and Prospectus contained meaningful cautionary statements that preclude Plaintiff from prevailing on its claims against UBS.

**Sixth Defense**

The Complaint's claims against UBS are barred because the depreciation in the value of GT Solar stock is attributable to factors other than the alleged misstatement or omission.

**Seventh Defense**

If the Registration Statement or Prospectus contained any false or misleading statement or omitted any material fact required to be stated or necessary to make any statement not misleading, which UBS denies, and if the lead Plaintiff or any members of the putative class were aware of that statement or omission when they purchased their shares, then such plaintiffs cannot prevail on their claims against UBS.

**Eighth Defense**

The claims asserted in the Complaint are barred by lack of subject matter jurisdiction to the extent the putative class includes purchasers from outside of the United States.

**Ninth Defense**

Plaintiffs who did not purchase GT Solar securities from UBS lack standing to assert claims against UBS.

UBS reserves the right to assert other defenses, cross-claims, and third-party claims when and if they become appropriate in this action.

WHEREFORE, UBS respectfully requests that Plaintiff take nothing by reason of its Complaint, that judgment be entered in Defendants' favor dismissing the Complaint with prejudice, that the Defendants be awarded their reasonable attorneys' fees and costs of suit, and granting such other and further relief as this Court may deem proper and just.
